Association of Pharmaceutical Teachers of India (APTI)

ASSOCIATION OF PHARMACEUTICAL TEACHERS OF INDIA - an association founded by the pioneers of Pharmacy education in India in 1966. Leading the association were personalities like Prof. M. L. Schroff, Prof. G. P. Srivastava and others, which has come a long way in creating better intercommunication and promotion of excellence in pharmacy education. Through its tailor-made mission and objectives, the association has provided a single platform in bringing together teachers of pharmacy education from all over the country. This has helped in the achievement of excellent standards and to develop new technological methods in pharmacy education through the exchange of views amongst the teaching members. The efforts of the association in encouraging and supporting its members achieving such milestones have always been well appreciated. Every year APTI conducts conventions for teachers of pharmacy at different parts of India to connect and stay updated with them.

Lloyd Institute of Management & Technology

Lloyd is an educational institution, which strives in giving best support for students to help them succeed. Since its inception more than a decade ago, institute has built as an independent, coeducational, privately endowed college, having courses in management; and pharmacy. We, at Lloyd, are driven by the belief that every child deserves a high quality education. Lloyd has acquired the status of one of the premier, most aspired- for education institutes on North India, for imparting the Best Education Innovative Teaching methodology including interactive educational sessions, Counseling and guidance cell to guide the students at each step so that they take the right career decisions. Students are given practical exposure through Industrial tours and trainings. Lloyd is student-centric and ready to face the global challenges of the Pharmacy profession.

Pharmacy @Lloyd

Lloyd has remained a place of innovation and excellence in pharmacy education since last fourteen years. As the needs of society and profession have changed, the Institute has also evolved and continues to bring about positive changes to prepare future pharmacists for an expanded role in the healthcare profession. B.Pharm. at Lloyd is approved by AICTE, New Delhi and Pharmacy Council of India and affiliated to A.P.J. Abdul Kalam Technical University (APJAKTU). The passed out batches have been successfully placed in reputed pharmaceutical companies like Sun Pharma, Dabur, Cadila, Cipla, Himalaya, etc. and are rising exceptionally well in their career. Consistently amongst the top-ranked private schools of pharmacy, Lloyd continues to be an innovative force in pharmacy education to meet the needs of a changing world. Today, we offer Bachelor of Pharmacy (B. Pharm.) and Master of Pharmacy (M. Pharm.) in Pharmaceutics and Quality Assurance. The student here is given opportunity for an all-around development, a rich professional & social atmosphere, space and technical support to develop innovations and immense guidance from faculty, hence opening the doors for many opportunities after graduation. Our main forte lies in our links & collaborations with the pharmaceutical industry. We believe more in on-site training than only theoretical classes. Not only the students, but also the faculty undergoes practical refresher training session in the industry on a regular basis. Lloyd provides an exciting and engaging environment for students to pursue their studies as well as engage in activities which will make them a successful human being.

About the conference

Challenges for global competitiveness of pharmacy practices relevant to education.

Objective of the conference :

The practice of pharmacy and pharmaceutical education are undergoing unprecedented global changes. So, the use of a needs-based approach to education with an emphasis on linking pharmacy education with the health needs of populations and national priorities are required.

Therefore, Higher Education Institutions (HEIs) should be locally determined, globally connected, and quality assured socially accountable based on a clear description of professional competencies, linked with health care needs.

In an era when decisions are taken on a global scale, it becomes even more important for pharmacy students to engage in international opportunities that will contribute to social and institutional cooperation. The capacity to provide pharmaceutical services globally is dependent upon having a competent, adaptable and capable workforce, and a similarly integrated academic workforce to train and support sufficient numbers of new registered pharmacists and other support staff at both entry-to-practice and advanced levels.

Pharmacy and pharmaceutical education has to be designed so it can deliver the skills needed by students to work in different pharmaceutical settings once qualified, there are many gaps to be filled in pharmacy and pharmaceutical education worldwide and in order to mitigate these issues undergraduate students must be taught with new methodologies to help them adapt to real life problems in a comprehensive and multi-disciplinary way.

The objective of the brain-storming conference at Lloyd would be to engage in discussing and solving such issues.

OUTCOMES:

- Clear career pathways and training schemes to address the academic workforce in general, and a practitioner-academic workforce in particular.
- Achieving sustainable solutions to the challenges surrounding pharmacy education.
- Student-centred learning to achieve the problem-solving skills and application of knowledge to real life problems.
- Bridge the gap between pharmacy curricula and global health needs.
- Effective quality assurance of pharmacy and pharmaceutical education, and the production of competent pharmacy graduates.
- Development of professional curricula to prepare pharmacy students for future innovations in personalised medicines, information systems, and team-based patient care.
- Enhanced global experiences for pharmacy students by reaching out to faculty and maintaining international relationships, taking advantage of existing university services and relationships, and collaborating with other health professions programs and organisations.

Schedule

Inauguration of APTICON
&
Keynote Address

APTI Award Ceremony

KLE Oration Lecture

How to reach Greater Noida (Delhi NCR)

New Delhi station is almost an hour far from Greater-Noida. The city is deliberately located almost at a distance of 25 km from New Delhi. This beautiful city is well connected by a DND Flyover and the newly developed 6-lane Expressway which now makes it easy to reach Greater-Noida. A sixty meter wide road from industrial sector Ecotech- III to NH-24 is also provides access to NH-24 from Greater Noida. Plenty of buses ply between Botanical Garden metro station and Greater Noida.

* Delhi Airport is around 50 km from Greater Noida.

In and around Delhi NCR

The Red Fort: Iconic 1600s imperial residence & museum | Qutb Minar: 5-story victory tower with balconies | India Gate: 1920s triumphal arch & war memorial | Jama Masjid: Vast, 17th century Mughal-style mosque | Lotus Temple: Temple with a flower-like design | Akshardham: Giant Screen Theatre, museum, musical fountain show | Gurudwara Bangla Sahib: Sikh religious site with healing waters | Rashtrapati Bhawan: President's official home, with museum | Purana Qila: Riverside fortress with Mughal-era-gates | Lodi Gardens: 80-acre city park inaugurated in 1936 | Chhatrapur Temple: established in 1974, this enormous Hindu temple complex is a popular pilgrimage site | National Museum, Delhi | Gandhi Smriti: Museum & memorial honoring Mahatma Gandhi in his former home where he died.

We wholeheartedly welcome you
